

San Francisco VA Health Care System

The San Francisco VA Health Care System is a comprehensive network that provides health services to Veterans through the San Francisco VA Medical Center (SFVAMC) and six community-based outpatient clinics in Santa Rosa, Eureka, Ukiah, Clearlake, San Bruno and downtown San Francisco. It has a long history of conducting cutting edge research, establishing innovative medical programs, and providing compassionate care to Veterans. The Medical Center has 124 operating beds and a 120-bed Community Living Center. Primary, mental health and specialty care is provided at its outpatient clinics.

SFVAMC has several National Centers of Excellence in the areas of Epilepsy Treatment; Cardiac Surgery; Post Traumatic Stress Disorder; HIV; and Renal Dialysis. It has many other nationally recognized programs including: the Parkinson's Disease Research, Education, and Clinical Center; the Hepatitis C Resource Center; the Mental Illness Research & Education Clinical Center; and the Western Pacemaker and AICD Surveillance Program. The Medical Center is designated as one of only five VA Centers of Excellence in Primary Care Education. It has also been selected as a Community Resource and Referral Center, one of only 12 locations designed to serve homeless and at-risk for homeless Veterans and their families. The Medical Center is the first VA to perform MRI-guided deep brain stimulation surgery and is one of only a few VA Medical Centers performing state-of-the-art transcatheter aortic valve replacement procedures.

SFVAMC has the largest funded research program in the Veterans Health Administration with \$70 million in research expenditures. The Medical Center is one of the few in the world equipped for studies using both whole-body magnetic resonance imaging (MRI) and spectroscopy, and is the site of VA's National Center for the Imaging of Neurodegenerative Diseases. Additionally, the San Francisco VA Medical Center has established a unique partnership with the Department of Defense (DoD) to study the basic neuroscience and neuroimaging of combat-related brain and spinal cord injuries, PTSD, fracture/polytrauma, and other neurological combat-related injuries and predictors of injuries of war fighters. This program is considered a national resource by the DoD.

The Medical Center has been affiliated with the University of California, San Francisco (UCSF), School of Medicine for nearly 60 years. All physicians are jointly recruited by SFVAMC and UCSF School of Medicine.

Operating Budget	\$580 million
Research Budget	\$70 million
Operating Beds	124
Nursing Home Beds	120
Unique Patients	64,341
Unique Women Veterans	3,107
Outpatient Visits Total	652,971
SFVAMC	469,397
Clearlake	12,826
Downtown SF	37,682
Eureka	36,540
San Bruno	12,691
Santa Rosa	64,269
Ukiah	19,256
Inpatient Admissions	5,568
Employees	2,477
Volunteers	900

Areas Served: Veterans in the counties of Marin, Napa, Sonoma, Lake, Mendocino, Humboldt, San Francisco and San Mateo.

Medical School Affiliation: Affiliated with the University of California San Francisco - Schools of Medicine, Nursing, Dentistry, and Pharmacy.

There are 196 Residency and Fellow positions; 40 allied health professional trainees. More than 700 UCSF trainees from 36 clinical programs rotate through SFVAMC.
