Supplemental Draft
Environmental Impact Statement (EIS)

San Francisco Veterans Affairs Medical Center (SFVAMC)

Long Range Development Plan (LRDP)

This Supplemental Draft EIS evaluates potential environmental impacts resulting from implementation of the VA Proposed Action. VA's Proposed Action is an LRDP that supports the mission of SFVAMC to provide for the health care needs of Bay Area and North Coast Veterans by providing for the renovation, expansion, and operation of the SFVAMC Fort Miley Campus within San Francisco County. The purpose of the Proposed Action is to meet the Veterans Health Administration mission of providing comprehensive, high-quality health care services that improve the health and well-being of Veterans and other eligible persons in the San Francisco Bay Area and Northern California. VA's need for the Proposed Action is to address the area's current and future capacity issues brought about by the growing Veteran population, to better serve the ever-changing health care needs of the growing Veteran population, and to provide safe and appropriate facilities for providing health care services and conducting research. This Supplemental Draft EIS analyzes three action alternatives that would involve implementation of an LRDP. All three action alternatives would include seismic retrofit, demolition, new construction, and operation of VA clinical, research, administrative, and parking structures. Also evaluated is the No Action Alternative, in which VA would continue operation and maintenance of the existing medical center at Fort Miley. Alternative 1 has been identified by VA as the Preferred Alternative. This Supplemental Draft EIS has been prepared in accordance with the National Environmental Policy Act (NEPA) (Pub. L. 91-190, 42 U.S.C. 4321-4370f) and the implementing regulations of the Council on Environmental Quality (CEQ) (40 CFR 1500-1508). VA is the lead agency for the Proposed Action. For additional information concerning this document, contact Robin Flanagan at robin.flanagan@va.gov or (415) 750-2049. Comments on this Supplemental Draft EIS must be received by May 7, 2015.
